About HAIL

HAIL is an Approved Housing Body with a strong reputation in providing both quality housing and floating support services to people with mental health difficulties in their own homes across Dublin, Kildare, Portlaoise, Tullamore, Limerick and Louth.

HAIL's vision is to be the provider of choice for housing and support for people with mental health difficulties, enabling them to achieve and sustain independent living in the community by having secure, quality, affordable accommodation with appropriate support services tailored to their needs.

HAIL's mission is to provide housing and individually tailored support services to support tenants and clients, primarily those with mental health difficulties, to integrate and live independent lives in the community.

Our services provide support to HAIL tenants in their own homes and to clients in non-HAIL tenancies e.g. in Local Authority, private rented and other Voluntary Housing Body tenures. We also source tenancies for HSE clients exiting homelessness from hospital, hostels, and congregated settings, and source accommodation for prisoners upon release, supporting all our clients in their resettlement and community based mental health recovery.

Background

Adequate and appropriate housing is a key component of establishing and maintaining human well being. The primary principles relevant to the housing needs of individuals with mental health difficulties include flexible community care, high quality interagency shared case loads, specialist mental health interventions, generic and practical supports and inclusiveness.

Rebuilding Ireland (2019), our Government's Action Plan for Housing and Homelessness, cites that; "accommodation alone will not address the underlying problems of vulnerable groups such as those experiencing mental ill health and that their complex needs must be addressed by offering supports of a holistic, medical and practical manner."

Mental Health has a specific aim in the National Housing Strategy for People with Disabilities. HAIL provide both permanent housing in local communities of choice and visiting floating support services to sustain these tenancies. We reduce homeless presentations and decrease the number of avoidable hospital admissions. We promote Health Ireland and Slaintecare Priorities and embrace the lived experience of Peers through our external relationships.
